

Instructions for Internet Resource

- Go to www.Behrmanhouse.com
- Click on **Apps**
- From the "Drop-down menu", click the top option in **RED**, "**FREE ONLINE GAMES & HEBREW PRACTICE**"
- Click on "**Practice Hebrew**"
- Click on "**Toggle Full Screen**"
- Lesson 1 -25 will appear on the next screen
- Follow each Lesson for review by clicking on each individual Hebrew Letter/Vowel on the line of the individual Lesson Number
- You must practice reading out loud on your own. Outwardly speaking each word will help you by hearing the word pronounced. Reading the words and silently saying them in your head will not let you hear yourself.
- After you have read each word, click on the word to hear it. (You will retain the language much quicker if you attempt to read the words yourself rather than repeat after the word has been spoken from the internet source.)
- If you are in doubt of a letter and/or vowel, click on the word first and then repeat the word.
- Do not click on the green arrow to hear the entire line and read it immediately thereafter. This process will become effective as your language skills become stronger.
- You can always click on the top box "**Back to TOC**" (Table of Contents) to continue with another Lesson.
- The 25 lessons cover all of the letters, final letters and vowels of the Hebrew language. This web site is a wonderful resource and excellent review during your learning stage.
